EVERBROADCAST

Dubai Future Forum 2022

Host Broadcast Service

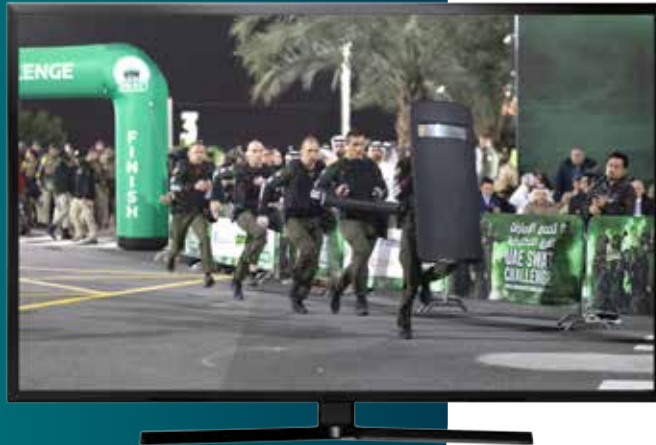

Broadcast Coverage at the Museum of the Future

With 28 broadcast cameras, we provide extensive coverage across 7 venues in the Museum of the Future. A Centralized Production Control Room and Media Center facilitated live and post-production content distribution for national and international broadcasters.

Live content is also handed off to Dubai TV, Abu Dhabi TV, and other state broadcasters for seamless delivery.

Media Center & Broadcast Studio

As part of our broadcast services, we created content, monitored it, checked it for quality, managed media centers so they delivered content live to local media outlets and remote media broadcasters, broadcast live on YouTube and Instagram, created content for Dubai Police, set up SWAT Live studios with multiple cameras, and designed media studios and brand identities.
